Issue 2-15

Since our last newsletter Menshed has been meeting each Friday afternoon and have undertaken a variety of activities.

One Friday we all met earlier than our usual time of 2pm and a party of us visited a great café in High Ongar and we all enjoyed a lunch. This café is unusual as it is located in an old Freight Container and serves the people who work on the Industrial Estate on which is situated.

In this issue we will be highlighting some of the other activities that we have enjoyed.

SECRET NUCLEAR BUNKER

If you know anything about Brentwood you will know that one of the worst kept secrets is the location of the SECRET Nuclear Bunker, it is so well signposted all around the area.

One Friday afternoon, about a dozen of us went to visit this local attraction. Some of the party had never seen it before and so it was a real education as to the preparations the Government of the day had made because of their fear of an imminent nuclear war.

As is our custom we completed the afternoon in the café enjoying tea and cakes.
